MEMORANDUM FOR: Director, National Photographic

SUBJECT:

Consultant

1. According to information received from NPIC, [] has been employed by NPIC on the West Coast as a consultant "trouble shooter" since 1 January 1963. During the past fiscal year (1964), he is stated to have worked a total of 83 1/2 days. He is said to have rendered extremely valuable services. Up to this time, NPIC has asked [] as a matter of policy, to refrain from having his services utilized by any other company with which the Agency has a contract regardless of the fact that a conflict of interest situation might not exist. [] has submitted a request dated 13 June 1964 for relaxation of this policy with specific regard to two companies, [] The National Photographic Interpretation Center [] has indicated that it has no objection to acceding to this request providing a conflict of interest does not exist.

2. Accordingly, we have examined the current Employment Statement of [] and believe his employment as a consultant by the two companies would be proper within the meaning of the President's memorandum of 2 May 1963 on the subject of preventing conflicts of interest on the part of special Government employees.

3. Under the terms of the President's memorandum, the Statement is also to be examined by the using official in order that he may be aware of the consultant's other interests and commitments and thus avoid using the individual in such a manner as might give rise to a conflict-of-interest situation. We therefore suggest that the Statement also be reviewed by you or your designee. Upon completion of that review, the Statement should be returned to [] Procurement Division/OL, for file. You should retain a copy.
